

TOKHEIM QUANTIUM™ 310 FUEL DISPENSER

Built to serve

A champion amongst industrial dispensers, the Tokheim Quantum™ 310 fuel dispenser is a high-performing, no nonsense workhorse that really delivers, appealing to those who just want to get the job done!

The Quantum 310 fuel dispenser is available as either a single, twin or quad model and offers high-speed refuelling of up to 130 LPM (200 LPM available as an option), making it ideal for private fleet companies, and small fuel retail sites specialising in large vehicles. Due to its unobtrusive size, this multiproduct dispenser slots easily and modestly into industrial fuel retail environments.

Tokheim Quantum 310 fuel dispenser

Industrial versatility

The Quantum 310 fuel dispenser offers more configuration options and capability than the smaller models, with the option to dispense two fuel grades, and benefits from a spring mast-based hose retractor system that enhances ease of use for customers. The Quantum 310 fuel dispenser can be customised to showcase the best of your brand: add colour, logos and graphics to create a unique look.
