

TOKHEIM QUANTIUM™ 510M SHR FUEL DISPENSER

Building on excellence

Deliver a first-class service to your customers with the Tokheim Quantum™ 510M semi hose retraction (SHR) fuel dispenser. Modular, versatile and durable, it represents the best in fuel dispenser technology.

Whatever the set-up of your forecourt, the Quantum 510M SHR fuel dispenser is designed to meet your needs. With enhanced features and flexible packages, you're in charge of building a bespoke model that's perfect for your forecourt. With multiple hose management systems and the ability to dispense up to five fuel grades per side, this unique and completely modular dispenser is a sound investment for many years to come.

Tokheim Quantum 510M SHR fuel dispenser

Epitome of Value

Introducing innovative features such as double-bump piping to dramatically increase dispenser maintainability, the Quantum 510M SHR fuel dispenser is a cost-effective option for site managers when modernising their forecourts. The semi hose retraction not only keeps forecourts neat and tidy, but also provides ample hose reach for easy refuelling.
